

Septech Holdings Limited

Water and Mobile Water Signature Projects

Septech Water GCC Projects Map

1 990,000m³/day
Pre-Treatment Plant

**Atlantis
Dubai, UAE**
Sand filters, heat exchanges, pumps, strainers, ozone generating equipment, compressors, chemical dosing, foam fractionators, UPVc pipe systems ranging from 1" through to 24", valves and fittings.

2 22,700m³/day
SWRO Plant

**Al Ghubrah Mobile Water
Plant Muscat, Oman**
Sea Water System, Media Filters, Chemical Dosing Units, Sea Water RO plant

3 12,000m³/day
SWRO Plant

**Occidental Petroleum
Mukhaizna, Oman**
Sea Water System, Media Filters, Chemical Dosing Units, Sea Water RO plant

4 10,000m³/day
SWRO Plant

**Saadiyat Island
Abu Dhabi, UAE**
Sea Water System, Media Filters, Chemical Dosing Units, Sea Water RO plant

5 5,000m³/day
BWRO Plant

**The Tiger Woods
Dubai, UAE**
Low velocity Filtration Systems, Chemical Dosing Units, BWRO plant with fouling resistant membranes

6 4,500m³/day
BWRO Plant

**Iberdrola Power Plant
Doha, Qatar**
Brackish Water Systems, Media Filters, Chemical Dosing Units, Brackish RO plant

7 720m³/day
BWRO + DM Plant

**(DSWMC) Domestic Solid
Waste Management Center
Doha, Qatar**
1 No. Mobile Brackish Water RO Unit and 1 No. Demineralisation Unit

Project Profile

The Atlantis, The Palm, Dubai

- Client:** Kerzner
- Project Name:** Atlantis
- Project Location:** Atlantis, The Palm, Dubai, UAE
- Project Size:** Water production 990,000m³/day
- Services Provided:** The supply, installation and commissioning of all the Life Support Systems (LSS) required to sustain the aquatic exhibits at Atlantis, complete with the mechanical plant equipment and servicing of the freshwater applications, i.e. the rides & slides for Aquaventure.
- Products Provided:** Sand filters, heat exchanges, pumps, strainers, ozone generating equipment, compressors, chemical dosing, foam fractionators, UPVc pipe systems ranging from 1" through to 24", valves & fittings.

Project Profile

Saadiyat Island, Abu Dhabi

Client:	TDIC
Project Name:	Saadiyat Island - Stage 1 Water Infrastructure
Project Location:	Saadiyat Island, Abu Dhabi, UAE
Project Size:	Desalination production 10,000m ³ /day
Services Provided:	On-site mobilisation, installation of all civil works, commissioning, operations and maintenance
Products Provided:	Sea water intake system, media filters, chemical dosing units, sea water reverse osmosis plant

Project Profile

The Tiger Woods, Dubai

Client:	Tatweer
Project Name:	Al Ruwaya Course - Water Infrastructure
Project Location:	Tiger Woods Golf Course, Dubai, UAE
Project Size:	Desalination production 5,000m ³ /day
Services Provided:	On-site mobilisation, installation of all civil works, commissioning, operations and maintenance
Products Provided:	Low velocity filtration systems, chemical dosing units, R.O. plant with fouling resistant membranes

Project Profile

DSWMC Domestic Solid waste Management Center - Keppel Seghers Engineering

Client:	Keppel Seghers Engineering
Project Name:	DSWMC Domestic Solid Waste Management Center
Project Location:	Doha, Qatar
Project Size:	720 m ³ /d demineralised water
Services Provided:	Design, Supply, Installation, Operation and Maintenance of Plant
Products Provided:	1 No. Mobile Brackish Water Reverse Osmosis Unit and 1 No. Demineralisation Unit

Project Profile

Provision of Short Term Steam Generator Feed Water Supply – GAP RO, Mukhaizna, Oman

- Client:** Occidental Mukhaizna LLC
- Project Name:** Provision of Short Term Steam Generator Feed Water Supply – GAP RO
- Project Location:** Mukhaizna, Oman
- Project Size:** 12,000m³/day of product water
- Services Provided:** Supply, installation and operation of sea water MMF containers, SWRO containers complete with CIP and chemical dosings
- Products Provided:** Sea water MMF containers, SWRO containers complete with CIP and chemical dosings container, DG interface panel, instruments, etc.

Project Profile

Al Ghubrah Desalination Plant, Muscat

MEED Quality Award 2011 Winner: GCC Water Reuse Project of the Year

- Client:** Public Authority of Electricity and Water
- Project Name:** Al Ghubrah 5 MIGD Mobile Water Treatment Plant
- Project Location:** Muscat, Oman
- Project Size:** 22, 700m³/day of product water
- Services Provided:** Design, Installation and Operation of Plant
- Products Provided:** Multimedia filter containers, Seawater RO containers, low pressure pumps, chemical dosings, air blower, 33KV & 11KV transformers & switchgear and delivery pipes.

Project Profile

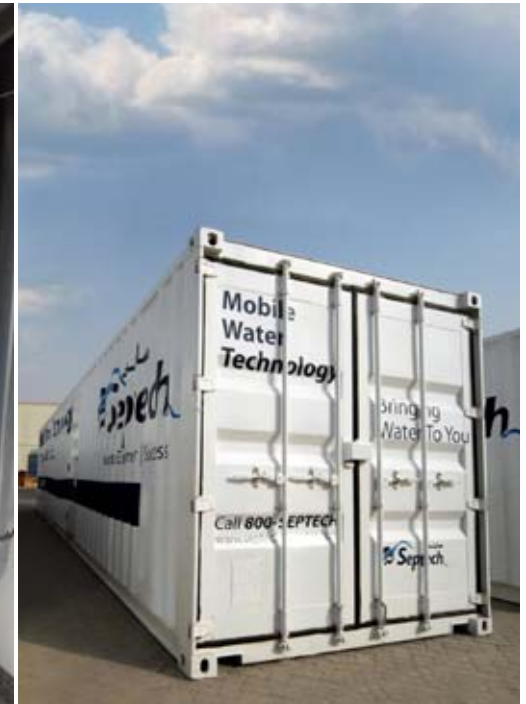

Saadiyat Island, Abu Dhabi

Client:	TDIC
Project Name:	Saadiyat Island – Temporary Mobile Water Solution
Project Location:	Saadiyat Island, Abu Dhabi
Project Size:	Desalination production 1,000m ³ /day
Services Provided:	On-site mobilisation, installation of all civil works, commissioning, operations and maintenance
Products Provided:	Sea water intake system, media filters, chemical dosing units, sea water reverse osmosis plant

Project Profile

Iberdrola Power Station, Qatar

Client:	Iberdrola
Project Name:	Iberdrola Power Station Start-up and Commissioning
Project Location:	Doha, Qatar
Project Size:	Brackish RO processing 4,500m ³ /day
Services Provided:	On-site mobilisation, installation of all civil works, commissioning, operations and maintenance
Products Provided:	Brackish water system, media filters, chemical dosing units, brackish reverse osmosis plant
